WARRANT FOR TOWN MEETING
STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Rollinsford in the County of Strafford, in said State, qualified to vote in town affairs:

You are hereby notified to meet at Town Hall in said Town on Tuesday, the fourteenth day of March next, at ten o'clock in the forenoon, to act upon the following subjects:

- ART. 1. To bring in your ballots for Town Clerk, Town Treasurer, One Selectman and Overseer of the Poor for a term of three years, One Road Agent, and Chief of the Fire Department. Also one Selectman and Overseer of the Poor for a term of two years.
- ART. 2. To choose all other necessary Town Officers for the ensuing year.
- ART. 3. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations for the same.
- ART. 4. To see if the town will vote to allow a discount of 2% on all taxes of the 1944 levy, except poll taxes, paid on or before September 1st. next.
- ART. 5. To see if the voters of the Town of Rollinsford will authorize the Selectmen to borrow money in anticipation of the collection of taxes.

ART. 6. To transact any other business that may legally come before said meeting.

Appropriations will begin at eleven (11) o'clock sharp.

Given under our hands and seal this twenty-eighth (28) day of February, in the year of our Lord, nineteen hundred and forty-four.

ALFRED L. ROUX,

EDWARD J. HUDON,

Selectmen of Rollinsford.

REPORT OF CHIEF ENGINEER
and
FOREST FIRE WARDEN

Citizens of Rollinsford:—

While it is an acknowledged fact that new apparatus and some fire fighting equipment are very much out of the picture for the duration, although badly needed by this department to efficiently fight your fires and save the taxpayers much worry and financial losses caused by fires, nevertheless, we have been doing and will continue to do our best, while the extra hardships continue to confront your fire department. May I take this time to suggest that post-war planning relative to new apparatus and some much needed fire fighting equipment, for your fire department, should, by all sane reasoning of future fire protection, for both lives and property receive your immediate consideration for financing of the same, in the immediate future after the war's conclusion. This is sound post-war planning economy for the town's protection from loss of life and valuable property from fire and its many hazards relating thereto. Nothing is more urgent in economical planning than the above if your fire protection is to function after the war's conclusion.

Now, may I earnestly suggest, is the time to start to be prepared. Man power, or firemen, at the present time is one big headache. Not only here but everywhere due to the many government industries and the requisition of men to operate them. Firemen in town part time daily is what we must depend upon. So many men working the different shifts leave only a handful at home at all hours of the day and night to answer alarms

for fire. Manpower is one big problem and fire departments certainly do take a licking for the want of men to fight fires at all hours.

During the past year it has been necessary, at times, to call upon citizens, other than members of your fire department, to assist in fighting some of your fires due to the absence of regular or substitute firemen, who were on the job in out of town government industries. We wish to thank those men who have assisted us in any way while fighting fires in the past and will truly appreciate their future support. It is our intention to see that the services of all citizens, when called upon to assist the fire department pertaining to the duties of fireman, shall be duly paid therefor.

One more serious handicap pertaining to the sounding of an alarm for fire is due to the fact that only one signal alarm box, is at present, located on the siren system. This one box, for sounding our alarm, is located on the town hall outside the fire station. If an alarm for fire comes in by telephone to the Chief's home it is necessary, at all times, to run to the fire station before sounding an alarm. That takes time and means many minutes must be wasted before trucks and men can roll. Time is very valuable at the start of a fire or before it can gain headway. We have tried to overcome this serious handicap and procure the necessary wire and equipment to install an alarm starter box in the home of the Chief but have been unsuccessful to date in obtaining the required supplies which are under government control. We are still working on this matter and have some hope of improving same but at this writing there is nothing sure of our meeting with success.

It is very pleasing to note the harmony existing between the fire departments of the surrounding cities and towns. Responding to the assistances of one another on call has proven extremely helpful to all concerned and, in a large way, has helped to overcome the

manpower shortage now existing in practically all fire departments. For the able assistance received from the neighboring departments in the past we are very thankful and in turn we have tried to reciprocate. Only by such friendly relations of neighboring fire departments can a feeling of security from fire be attained.

The issuing of fire permits by your Forest Fire Warden was handled on about the same basis as were those of 1942. The rules and regulations issued by the State Forester for the issuance of such fire permits were followed as closely as possible. Kindling a fire, with a permit to burn, is by state regulation confined to rainy days. This regulation has proven its value and will remain in force until the necessary authority is attained from the State Forester to recede therefrom by the town Forest Fire Warden. Fire permits **MUST** be secured from your town Warden before any fire can be kindled in the open when the ground is **NOT** covered with snow.

Remember—the procuring of a permit to kindle a fire in the open anywhere is a State regulation and can be prosecuted as such if neglected. **BE SURE YOU GET A PERMIT.**

Again it should be fully understood by all citizens and parties interested, that your fire department, has not in the past and will not in the future, take upon itself the responsibility of burning grass, brush or rubbish when so solicited either with or without pay for the same. Such fires will have to be burned and the risk for same assumed by the party interested after the proper permit is secured from the Forest Fire Warden. The above rule will be strictly adhered to by your fire department, which in the long run will pay big dividends.

Just a word of caution to those well meaning autoists and others who chase the fire trucks responding to an alarm for fire. This habit by some folks is not only dangerous to their lives and property but is in many

ways a serious handicap to the fire trucks and firemen, who, by law are entitled to the right of way. So may we ask you to consider these facts and try not disrupt the fire service by doing all in your power to assist the fire department when going to, coming from, or, while at a fire. Thank you all for this consideration for better fire service.

In conclusion, we desire all to know that any assistance rendered this department in the past is gratefully acknowledged and call upon you to keep up that support for better fire service in the future so that the loss from fire in our town may be kept within bounds at all times.

LOCATION OF ALARM BOX

Outside the fire station at the town hall on Fourth St.

IN CASE OF FIRE

Telephone South Berwick 270, Rollinsford Fire Department or South Berwick Dial Exchange Dial Number 270.

Act quickly. Talk Distinctly. Help us serve you.

Chief Engineer's telephone number 270, is listed in the telephone directory, South Berwick Maine Exchange, under Rollinsford, Town of, Fire Department, Salmon Falls, N. H. 270.

Eliminate Fire Hazards. Secure your Fire Permit. Use Caution.

Come forward and offer your services for the duration; we can use YOU.

We solicit your cooperation for service.

Respectfully submitted,

RAYMOND C. CHASE,

Chief Engineer and
Forest Fire Warden

January 31st, 1944

Concord, New Hampshire
January 13, 1944

To the Forest Fire Warden:

The attached has been prepared for publication in your annual town report. It is intended to arouse local interest in your forest fire problem and to secure for you the needed cooperation in both preventing and suppressing such fires as may occur. A copy has been sent to the Chairman of the Board of Selectmen but it would be well for you to contact him and personally request its publication.

Thos. J. King,

District Fire Chief

REPORT OF THE FOREST FIRE WARDEN

Crises like the present test the quality and sincerity of everyone's patriotism and citizenship. The times make such unavoidable demands for universal cooperation in the many lines of essential regular and emergency public endeavor that the response given may well be assumed to be the real measure of one's love of country and his appreciation of the opportunities it offers. Ranking high in the list of public endeavor is the protection of our forests from fire. It calls for full and generous cooperation by each of us. Fire statistics indicate that better than 98 per cent of all fires in New Hampshire are man-caused. If human carelessness could be eliminated from the problem, the number of fires would drop to a mere minimum of less than 2 per cent of the present figures and fire costs and losses would reduce in proportion. While this goal will not be achieved because of the perversity of human nature, the record can be vastly improved through individual discipline, alertness and cooperation.

Discipline calls for personal restraint from following unrestricted natural impulses to do as one pleases with regard to fire; alertness in cautioning others against imprudent and illegal burning and in promptly reporting fires to the local forest fire warden; cooperation in complying with laws, rules, and regulations governing the kindling and care of fires, smoking, safety of mechanical units using fire in and near woodlands and assisting the local warden in extinguishing such fires as may occur.

The possibilities of disastrous and expensive woods fires are constantly becoming more real. The hurricane felled an estimated one and one-half billion board feet

of standing timber, much of which was never cleaned up. To this hazard has been and is being added extensive areas of slash from additional hundreds of millions cut to produce vitally needed wood for the war effort. With the stage so set, greater caution is increasingly necessary. It will pay substantial dividends in unburned forest areas and the saving of unnecessary fire expense.

The year 1943 was an extremely fortunate one because of favorable weather conditions. Many towns had no fires, some had minor fires while a few had expensive ones. The public controls the answer to the 1944 and future years' fire records. If the public is careful and cooperative the record will be good.

Your town warden is, perhaps, more perplexed and anxious during these war years than ever before because of increased forest fire hazards and diminishing supplies of available man-power. He looks directly to you to aid him. Will you? You can aid him most effectively by always securing the required permit before attempting to burn and by complying fully with permit requirements; by being patient when he advises of departmental restrictions on permit burning or that he deems it unsafe to burn; and by giving him the needed assistance in extinguishing fires when he needs your help. To do so is to meet one real test of citizenship.

1943 Fire Record

Number of fires.....	1
Acreage Burned	21
No. Fire Permits Issued.....	28

ROLLINSFORD VICTORY GARDENS

Early in the year of 1943 Gov. Robert O. Blood addressed letters to all Civilian Defense Council Chairmen throughout the state, suggesting and requesting that each of them inaugurate a Victory Garden program of their own cities and towns. In Rollinsford this request applied more to the village of Salmon Falls rather than the entire town as the outlying sections are farming in character and need no suggestions that they plant to eat. However, in Salmon Falls, that request was carried out and the results were far more successful than the most sanguine had hoped. As Chairman of the local Civilian Defense Council I asked Mrs. Anne Tighe to serve as head of the Food Production Committee. She very graciously consented. Mr. Edwin Brown, Mr. Robert Bragg, now of the Army, and Rev. Albert J. Burke were her chief assistants.

Mr. E. J. York, of Dover, and Mr. Leopold Bisson were asked to loan land for these gardens and each of them was happy to do so and proud to be invited to help in this essential war effort.

The land that these two men loaned was divided into plots measuring 50 by 100 feet. Fifty-three families took advantage of them and these gardens made an unusually attractive sight all through the spring and summer, located as they were behind St. Mary's Church and reaching almost to the very banks of the Salmon Falls River.

At the end of the harvest season a Victory Gardener's dinner was held at the Public School and nearly two hundred people sat down to eat and, apart from the meat and the condiments, all that they ate had been raised by themselves as Victory Gardeners.

Some time later a survey was made, at my request, by the Public School children under the direction of Miss Elsie Hachey, to determine how much had been raised, or, in the case of wild fruits and berries, picked and canned or preserved by the people for themselves and by themselves. The results were astounding. In looking at these figures it must be borne in mind that none of these foods were bought in the markets, and, also, that about 10 per cent of the people queried refused to answer, mostly from fear that they would be required to surrender ration points for food so preserved. Due to lack of space the complete figures will not be given but those that are will give a very good idea of what was done.

Green beans . . .	1355 qts.	448 pts.
Corn on the cob	855 2-qt. jars	
Potatoes	1305 bushels	
Winter squash	2000 pounds	
Tomatoes	2410 qts.	354 pts.
Blueberries	1226 qts.	292 pts.

A complete list of the totals was sent to Gov. Blood. He answered with the following words: “. . . . You (The Food Production Committee and the gardeners themselves) are to be congratulated on the very fine showing indicated by your report and it is my hope that your program for next year may bring equally good results.”

Prof. Hepler, of the University of New Hampshire, also received a report and his reaction included these words: “You folks (The Committee and the gardeners) did a wonderful job and you can certainly be proud of what you have done.” In a Granite State Gardener, which he wrote he has this to say: “One of the out-

standing examples of community gardening was done in the town of Rollinsford, especially in the small community of Salmon Falls."

He broke down the figures and grouped the totals together to get the following results: 11,894 quarts of fruits and vegetables; 1,696 $\frac{1}{4}$ bushels of fruits and vegetables and 935 two-quart jars of vegetables stored for the winter. The retail value of these products amounts to \$10,286.89.

The bulk of the credit for this very fine showing must go to Mrs. Anne Tighe for her organizing ability and her ability to get things done, to Father Burke, to Edwin Brown and to Robert Bragg for their untiring work at dividing the plots and allocating them, in keeping records and for the endless amount of detail work that continually crops up in an undertaking of this kind. To the dozens of women who helped from time to time in getting speakers, in arranging the Victory Dinner, in cooking and serving it, too much praise cannot be given. Mr. John Tighe, who provided the meat for the dinner and who helped during the entire season was a source of advice, assistance and encouragement.

It was a pleasure to start such a project. For that opportunity I am grateful.

Fred L. Green, Jr.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Rollinsford:

In this annual report the statistics given are for the School Year ending June 30, 1943. Remarks, however, cover the current School Year. In the Comparison of Statistics please note whereas 162 different pupils were registered last year that the average attendance was only 140. This shows a shifting of population more than anything else, although the per cent of attendance was the lowest reported in years. Our transportation difficulties due to war conditions is reflected in the large number of tardy marks. More than 1000 of these were bus tardinesses for which neither pupils nor parents could be held responsible.

The class entering the first grade this year was so large that we had to rearrange the grades assigned. Grades one and two are now single grade rooms.

When Mr. Robert A. Bragg was called into war service it became necessary to discontinue for the time being the Manual Training. We also found it impossible to secure a part time teacher for the Home Economics. To replace Mr. Bragg Mrs. Anne S. Tighe patriotically offered her services and Miss Anne Brown assumed the title of Principal. We consider ourselves fortunate in being able to continue in our service such a good corps of teachers. (In my Union I now have only one man left as an Elementary Principal.)

The hot lunches are being continued under this year's federal set up. A rebate is allowed for the use of certain approved foods and 2c a half-pint bottle for milk. This arrangement permits us to sell milk to the pupils for 2c while we pay the distributor 4c. The charge for

the hot lunch without the milk is 5c. Miss Margaret Thomas continues to prepare and help serve the lunch assisted by the pupils. Miss Thomas's wages are paid in part by the service charge and in part from District funds which you have generously and wisely appropriated. Some foods such as potatoes and eggs have been donated and several ladies including the Home Extension group helped can fruits and vegetables last summer, the District furnishing the jars. Such cooperation is appreciated.

The one thousand dollars received for assistance under the Lanham Act has enabled the schools to carry on fully equipped. We have not been handicapped for want of any books or supplies. It is hoped that we may have a little surplus this year to enable us to purchase a few books for a school library.

As I write these lines the teachers are giving the six upper grades the Metropolitan Achievement Tests. These tests have been used for several years and helpful comparisons can be made.

The State Police have finger printed all new comers to the school, the other pupils having had their prints taken in previous years.

The William Martel Post of the American Legion presented achievement or citizenship medals to Theresa Letarte and Roger Cloutman at the graduation exercises last June. All of the graduates entered high schools.

This year high school pupils are enrolled as follows: At Dover 11 in Grade Twelve; 10 in Grade Eleven; 15 in Grade Ten; and 10 in Grade Nine. At Berwick Academy: 1 in Grade Twelve; 2 in Grade Ten and 2 in Grade Nine. The rate of tuition at Dover has advanced from \$89.79 to \$100.78. The rate charged is the average for the State of New Hampshire in the year preceding.

St. Joseph's Parochial School reported an enrollment of 113 in September as compared with 111 last year.

Only one day has been lost this year by the teachers issuing Ration Book No. 4. We are assured that no further loss of time for the rationing program will be necessary this year.

The State Teachers' Association again held regional meetings instead of one general meeting and our teachers attended a meeting held in Rochester in October. The superintendent has attended the meeting of the New England Superintendents held in Boston in November and plans to attend a regional meeting of the American Association of School Administrators to be held in New York February 22-25. Much time has to be devoted by your superintendent to the so called Defense Program, and he is supervising training courses at Durham and Somersworth. This added work is his contribution to the war effort.

Your school board has kept a watchful eye on the operation of the schools and serves you faithfully.

In reading the accompanying report of the School Nurse, note that 89 children are reported with defective teeth. A dental clinic is needed badly and just as soon as peace conditions make dentists available the clinic should be re-established.

We have such a fine auditorium to be used for the purpose of music instruction that the teachers and superintendent would like to see a Music Supervisor employed.

The schools have continuously bought war savings stamps and bonds and are helping in the scrap collections. At the present time the pupils from the district attending high school at Dover and the pupils from grades eight and seven are assisting in the 4th War Bond drive.

Miss Elsie Hatchey has replaced Mrs. Cross as leader of the Junior Red Cross. While this is not primarily a school project it has the hearty endorsement of the superintendent.

The public must realize that with everything else advancing in price and the value of the dollar declining that the schools will cost more next year. Over 200,000 teachers have left the profession since Pearl Harbor and our teachers' colleges are enrolling only 40 per cent of the normal number of pupils. We shall be fortunate indeed if we can maintain our schools at the present high level. We must keep our tried and trusted teachers.

Respectfully submitted,

HOWARD L. WINSLOW,

Superintendent of Schools,

Union 56

REPORT OF SCHOOL NURSE

1942-1943

To Mr. Winslow, Superintendent of Schools:

Rollinsford Grade School

Number of pupils weighed and measured and examined for vision, hearing or any defects in posture or crippled condition.....	152
Underweight more than 10 per cent.....	29
Defective vision	8
Defective vision corrected.....	5
Crippled condition	3
Help for crippled condition refused.....	3
Defective teeth	48
Enlarged tonsils	9
Enlarged tonsils corrections made.....	2
Defective speech	5

St. Joseph's Parochial School

Number of pupils weighed and measured, examined for vision, hearing, or any defects in posture or crippled condition.....	113
Underweight more than 10 per cent.....	27
Defective vision	4
Defective vision corrected	2
Crippled condition	1
Crippled condition corrected, under treatment	1
Enlarged tonsils	6
Enlarged tonsils, corrections made.....	4
Defective teeth	41

Notices of defects found are sent to the parents directly. If no correction is being made the School Nurse visits the home and talks the condition over with the parents. Any condition that the parents are unable to have corrected is given assistance through our local Red Cross.

For the hearty cooperation of Superintendent, teachers, parents and Red Cross, I am most grateful.

Respectfully submitted,

DEBORAH B. NUTTER, R.N.

School Nurse
